### NATIONAL INDUSTRIAL RADIOGRAPHY LEVEL 2 TRAINING COURSE CO-ORGANIZED BY MSNT-ANM

As a part of our efforts to increase the number of certified level 2 and 3 industrial radiographers in Malaysia to fulfil the expected increase in demand by the end users, The Malaysian Society for NDT (MSNT) has fostered a collaboration with Nuclear Malaysia for the purpose of conducting training for level 2 and 3 industrial radiographers. After a number of discussions held between the two organizations, it was agreed that the **FIRST** training course held under this collaboration will take place at Nuclear Malaysia on 21<sup>st</sup> May to 8 June 2012. The course will be conducted in accordance to ISO 9712: 2005 (basis for the National Certification Body requirements) that requires 2 weeks to be completed. MSNT hereby appeal to all qualified members to take this opportunity for the sake of their carrier development. The course provides a limited space and will accept participants on the first come first serve basis. MSNT wish to thanks ANM for its recognition on the role of the Society in accelerating the certification process.

**NATIONAL TRAINING COURSE  
ON  
INDUSTRIAL RADIOGRAPHY LEVEL 2**

21<sup>st</sup> MAY-8<sup>th</sup> JUNE 2012

## MEETING OF BOARD DIRECTORS, 7/3/12

A Meeting of MSNT Board of Director has been held at the Business Centre, Kuala Lumpur Convention Centre (KLCC) on 7<sup>th</sup> March 2012. The meeting was held to coincide with a day event organized by GE known as GE Measurement and Control where many new equipment and systems including those of NDT were on displayed. Among important decisions made during the meeting were:

- ❑ MSNT agree to finance part of the cost of participation of Dr Khazali Hj Mohd Zin and Dr. Abd. Razak Hamzah in WCNDT, 16<sup>th</sup>-20<sup>th</sup> April in Durban, South Africa
- ❑ The Board of Directors agreed to have the 23<sup>rd</sup> AGM to be held on 18<sup>th</sup> April 2012 at Nilai Spring Resort, Negeri Sembilan

MSNT wish to thank to one of the member Mr Royce Wong for his effort to provide the meeting venue at such a prestigious location.

Meeting of MSNT Board of Directors was held in a famous Kuala Lumpur Convention Centre.

Board Members discussing issues and matters related to the society's activity.

## RESEARCHERS VISITED HIS MELAKA

Members of Malaysian NDT community are very proud of the fact that there is at least a Malaysian manufacturing company that has a capability of manufacturing an advance NDT system. The company that is based in Melaka is manufacturing a system based on the use of an ultrasonic principle and known as acoustic microscope. However, almost all systems were manufactured for export purpose and none were utilized by local. Amazed with the achievement of this company that displayed its equipment during MINDTCE 11, a group of 12 NDT researchers from the Malaysia Nuclear Agency have paid a visit to the plant on 15 February 2012. Possible collaboration in RND between both organizations was also discussed during this visit. Malaysian Nuclear Agency thanked HIS for their hospitality during this visit.

One of the technicians who work with the company performing a demonstration on an Ultrasonic Immersion Scanning to the visitor.
